League Players

Stats for all players that participated in a season of a league.

Get Array of Players

[GET https://api.football-data-api.com/league-players?key=YOURKEY&season_id=*](https://api.football-data-api.com/league-players?key=YOURKEY&season_id=)

Sample Response (Access the URL below)

https://api.football-data-api.com/league-players?key=example&season_id=2012&include=stats

This endpoint provides an array of players that have played in the particular league/season ID. Each player object has attributes described in <https://footystats.org/api/documentations/player-individual>

Query Parameters

Name	Type	Description
------	------	-------------

page	integer	Pagination. Each page has 200 players max. If there is more players returned, then they are in page=2 and beyond.
max_time	integer	UNIX timestamp. Set this number if you would like the API to return the stats of the league and the teams up to a certain time. For example, if I enter &max_time=1537984169, then the API will respond with stats as of Sept 26, 2018.
key*	string	Your API Key
season_id*	integer	ID of the league season that you would like to retrieve.

200 Successfully retrieved all leagues.
