League Teams

Stats for all teams that participated in a season of a league. For example, the 20 teams in 2019/20 Premier League season.

Get Teams in a League Season

GET https://api.football-data-api.com/league-teams?key=YOURKEY&season_id=*&include=stats

Sample Response (Access the URL below)

https://api.football-data-api.com/league-teams?key=example&season_id=2012&include=stats

Returns the data of each team as a JSON array.

Add &include=stats to the request to get the stats of each team !

Query Parameters

Name	Type	Description
page	integer	50 teams are returned per page. By default, the initial page loaded is page 1. View following pages by appending &page=PAGE_NUMBER_HERE .
include	string	appending &include=stats to your query will allow you to bring in stats. In the future, we will be working to include more data. The included stats will be from the requested season, for each team.
max_time	string	UNIX Timestamp. Set this number if you would like the API to return the stats of the league and the teams up to a certain time. For example, if I enter &max_time=1537984169, then the API will respond with stats as of September 26th, 2019.
key*	string	Your API Key
season_id*	integer	ID of the league season that you would like to retrieve.

200 Successfully retrieved all leagues.
